This year's plaque illustration and cover picture on this programme features a 1928 Rover 10/25 Reg: VM4271. (Exhibit 'B10')

At the Hooe Show in 2008 I came across a Rolls Royce with a for sale sign hanging from the Spirit of Ecstasy, however it turned out that it was not the Rolls that was for sale but a 1928 Rover 10/25 open tourer that the Rolls owner had for sale.

I took the phone number, but when I contacted the owner he told me someone had said they would buy the Rover and if the sale fell through he would contact me. Five weeks later a phone call came to say the other person had not got back to him, and asked me to come and look at the car.

When I arrived later in the week to view the Rover I knew straight away that I would buy it, and a deal was struck.

Over the last 8 years we have had great enjoyment of ownership and many happy outings to shows and rally's of the Rover Sports register.

It is not the easiest car to drive, and the best speed to travel is 35mph. The breaks are rod operated, and alright for 1928 but not so good for 2016.

The car was restored in about 1981 at the request of two gentlemen who were the founder members of the Green Flag rescue service.

The 10/25 Rover is very rare in Uk in the open tourer style of coach work.

I would like to thank the first owner who paid £3.3/- to have a battery, Dynamo and electric starter, it's saved me a lot of handle starting!

Alan Robertson
